4. Open to the Floor

A. Resident Gary Beggan stated that he had some concerns about the FY2021 Working Budget. He stated that for the first time in 13 years, the Working Budget shows a deficit of \$20,000 and also that this is the first time the general funds will drop below \$2,000,000.00.

He also asked the Board what the reason was for annexing the Druce Lake Bottom and the West and East Shore Residents. He asked how we were going to pay for the annexations. He stated that history has shown that adding residential areas result in a net cost to the local government and corresponding increased property taxes.

President Buckley said that he realizes where the budget is, however, the storm sewers and drainage problems in Mariner's Cove need to be repaired and that the Village must provide these services to the residents.

President Buckley stated that the annexation of the lakes, including the West and East Shore Homeowners is not about making money. He said that the minimal amount of tax increase on those residents will potentially cover the cost of plowing their roads. He also said that the Village will receive revenue from other sources besides property taxes. He said that the residents would no longer be unincorporated, and that the annexation would make the lakes whole and in one Village. He stated that right now, the unincorporated areas are benefitting from the maintenance and repairs of the aerators, pump house, etc. but they are not contributing. He said that by being part of the Village, they can benefit from the Waste Management Contract which would save them over \$100.00 per year. They will also have a voice in the Village by being able to join our committees and run for offices.
